Marketing Basics for Consistent Cash Flow

Are You Finally Ready to Learn EXACTLY What to Do AND HOW to Do It in Regards to Getting More Clients in Your Business?

I'm talking about marketing and selling in your business.

These are after all, the two most CRITICAL activities that ANY small business owner (or sales professional in ANY industry) needs to learn and GET REALLY GOOD AT DOING!

Maybe you know a lot of the WHAT to do in your marketing, sales and your business.... but what's missing is the HOW.

Come to this presentation and learn:

- The basics of what makes a good marketing plan
- Top 10 revenue generating activities every small business owner should be doing weekly if not daily to get more clients consistently
- How to automate your marketing so you can reach MORE people with your message and your gifts

Then once you've got your business into a smooth-running, consistent income-generating machine you can implement additional strategies. **But if you don't at least do the basics of what works and what will bring you results then you'll just be spinning your wheels** over and over again not seeing the income you want (or deserve!) and you may use up all your original start-up capital to boot, then what? You may have to give up your dream of being an entrepreneur and author all together and go back and get a J.O.B.

Come to this session and learn how to automate, delegate and systematize your marketing and business tasks so that you're reaching MORE PROSPECTS FASTER and converting them EASIER into your sales funnel.

Speaking Topic #2:

Make More Money Doing What You Love

How do you continuously attract and find new clients, get all the repeat business you can so you don't have to work so hard and build a business that excites you and makes more money ... all at the same time?

The biggest mistake small business owners make is trying to do everything yourself. Yet you're not marketing enough to reach the number of prospects you need to in order to reach your goals. Entrepreneurs get distracted with so many ideas and options that you either do nothing or you do too many things at once but none of them very well. This presentation will teach you

EXACTLY what you need to know to attract clients and make money on a consistent basis while becoming more confident and clearer on how to run a successful business.

What you'll learn from this presentation:

- Tools, tips and mindset shifts to transform your business into a consistent moneymaking machine
- The **simple 3-step marketing system on** where to start, what to do and how to do it
- How to put all of this into a smooth-running system so it actually gets done or delegated

Speaking Topic #3:

Jumpstart Yourself as a Speaker to Grow Your Business or Career

There are lots of speakers out there talking about all kinds of different topics. What makes YOU different? **Why should you speak more and how can you stand out among others who do what you do?**

There are so many ways to market and grow your business, get clients, and make money these days but being a speaker is probably one of the easiest and fastest ways! Speaking Topic #5:

How to Design Your Talk to Make Everyone Want What You've Got to Offer

There are lots of speakers out there talking about all kinds of different topics. What makes YOU different? How can you stand out among others who do what you do?

If you're doing speaking presentations already or even if you've never done a single one, this presentation will give you some fresh new ideas to get noticed and get booked.

Designing what to talk about is an art and a skill because you want to know your overall goal from what you want out of the exposure before you figure out what you want to say. If you're primarily speaking for free, then you can often make an offer at the end of your talk. In that case, you need a talk that shares good content but also highlights what you're trying to sell. If you're looking for more paid speaking opportunities, you don't usually make an offer but there are things you do want to make sure you do for talks like that.

Come to this presentation and learn:

- How to craft your talk so it's easier to remember
- 3 strategies to increase your closing ratio without sounding salesy
- 5 ways to capture the contact information of everyone in the room regardless of what type of talk you're giving
- How to develop a kick-butt follow up system to engage attendees and sell more later
- How to know when to sell what and for how much to which group and why it matters

Speaking Topic #7:

Jumpstart Yourself as an Author to Grow Your Business

Why should you tell your story or write your expertise down in a printed book? Well, being an author could literally be the #1 thing that sets you apart from your competitors in many markets.

If your industry is riddled with authors it's still a great idea to become an author yourself, especially if your goal is to get more clients and grow your business. The problem is that many people who start out on a journey to write their first book, have no idea what's necessary for them to do once the book is done so they can get it into more hands of potential customers.

There are so many ways to get clients, and make money these days but being an author is probably one of the easiest and fastest ways if you know what you're doing and you don't overthink it! Whether you're comfortable writing or not, there is a way to get more comfortable so that you can finally become a published author and achieve that next level of credibility or celebrity status in your industry.

Come to this presentation and learn:

- 7 different types of books you could write

Regardless of what type of financial situation you're in, many entrepreneurs struggle because of lack of love in their life.... love and support for or by a significant other, love and confidence in yourself or love for life in general.

Lack of love in any capacity can surely hold you back from making huge monetary gains in your business whether you realize it or not. And this can send your business into a tailspin with little warning!

Join Katrina in this content rich presentation where she will share insights from her book, Love Yourself Successful, and you will discover:

Speaking Topic #11:

Profit from Social Media: 3 Simple Yet Crucial Secrets on How to FINALLY Make Money with Your Social Media Marketing Efforts!

You know how you buy a new TV or even a piece of furniture? It usually comes with a set of directions, right? Whether it's just to share how to use all the fancy buttons and gadgets, how to program your remote control to go with the new TV or how to assemble that new desk you may have purchased and had delivered. We typically need some sort of directions at least, so we don't waste a bunch of time trying to do the wrong things that won't get the results we're looking for.

Well, social media unfortunately didn't come with directions. And in fact, the rules and ways in which to use each site you're on continue to change pretty often. So, no wonder that you're frustrated sometimes when nothing happens as a result of hours and hours of time spent on your part when trying to use it as a lead generation tool for building your business.

There are a couple key things that any entrepreneur can do to get a much bigger response and ROI for the time you're spending, friending, commenting and liking.

Come learn how to get 1000 NEW leads and opportunities each month from just ONE strategy that 99.9% of people are NOT doing on social media. It's easy and best of all FREE to do!

Plus, learn how to funnel those leads into other easy-to-set-up systems that can funnel leads in daily to your website, speaking opportunities, joint venture opportunities and so much more.

During this presentation, you will learn:

- Why most entrepreneurs are wasting their time on social media and what to do about it
- The #1 thing you want to be spending your time on to get clients and referrals
- How to systematize your social media marketing so you reach a lot more prospects faster

Speaking Topic #12:

Stop Settling! (Alternate Title: It's Time to Take Charge)

Too often we settle, in jobs we hate, with men that aren't that supportive of us or who are abusive. We settle by taking on clients who don't value us or pay us enough. We settle by putting everyone else first. We often get so burned out that there's literally nothing left at the end of the day for ourselves.

From observing thousands of entrepreneurial women over the last decade or so, I've noticed over 50% of women in business are NOT HAPPY. They aren't happy in their personal lives, with themselves, their significant others or their status yet they aren't stopping to make necessary changes that can catapult them into a much happier lifestyle.

This talk will JOLT you out of your chair, your limited mindset and your comfort zone to inspire you and motivate you to want more, be more, go after more and realize you deserve more.

Join Katrina in this content rich presentation where she will share insights from her book, Love Yourself Successful, and her life's experiences where you will discover how:

- To take charge of your life, your business and your love life now
- To stop settling because life is too short to settle, you deserve to have it all
- And where to start and what you can do now to start making bigger plans and transforming your life now
